**COLEMAN LOWER MONO-BALL JOINT, GM**

-This mono-ball style lower ball joint is designed to fit the GM K-6145 ball joint sleeve. It features removable bushings to raise or lower the pivot point to adjust the roll center. It replaced the 73-88 Monte Carlo, El Camino, Chevelle, Malibu, 70-90 Camaro, 73-88 Cutlass, 75-79 Omega, 77-86 Bonneville, Catalina, Grandville, and other GM ball joints commonly used on most aftermarket lower Control arms. The kit comes complete with outer sleeve, ball, bushing kit, stud & nuts.

<u>Part No.</u>	<u>Description</u>	<u>Price</u>
COL835-450	Mono-ball joint, Lower, GM Mid-Size, K3012	\$63.90/ea
COL835-222	Stud, 6145, with nuts and cotter pin	\$17.70/ea
COL834-450	Bushing Kit	\$10.25/ea
COLCOM12	Bearing	\$17.80/ea

**HOWE PRECISION BALL JOINTS**

-Howe precision ball joints offer the precision of a spherical bearing with the misalignment range of a ball joint. They are easily rebuildable and adjustable. The alloy steel ball studs are process coated for low friction and long wear. You can feel the difference in smooth travel and easy steering effort. The rugged steel housing will withstand impacts that would destroy a standard ball joint, typically only the ball stud will need to be replaced.

**HOWE PRECISION UPPER BALL JOINTS - \$70.99ea**
